

MONTHLY NEWSLETTER

Summary February

Bruno

This February we found another 4 long stayers their forever families. Max, Helena, Molly and Pumpkin are all living their best lives here in the UK. Sadly Stella last month's dog of the month is still waiting for her big break.

Our lovely Bruno wasn't suitable for homing in the UK, he is terrified of men and small spaces. This month he started his new life in the most amazing sanctuary in Holland called Stichting Dierenthuis where he will live the rest of his days happy and safe. Our amazing team worked tirelessly for a year to get him into the prestigious sanctuary.

You have helped us raise emergency funds to feed our dogs and also to save gorgeous Minnie who was abandoned in a car park. Not only is Minnie safe she's reserved for adoption.

Coming up

We are currently raising funds for our annual spay campaign. We are aiming to raise at least £1000 in March which will allow us to work the amazing team at Apistopvet to spay as many animals as we can this April.

Cooper and Bobby are undergoing their treatment for heartworms. We can't wait to give you all an update and to send them off their forever families as soon as we can.

All our dogs are now at Scooby's Shelter which is a huge achievement. Work is also continuing at Scooby's with new fencing built this month, they also took in a few more dogs from the street. We just can't say no!

The lovely Caroline will be flying out to Romania this month, so watch this space for some updates from her visit!

This April we will be running our annual sponsored walk/run which you can do at your own pace. We will be launching this mid March so be sure to sign up! It's an amazing way for us to raise funds and Vicky from the team will be there every step of the way with you. .

DOG OF THE MONTH

BEHAVIOUR ADVICE

VISITORS

As exciting as it is when you first bring your new animal home it's really important you don't introduce visitors too early on.

Our animals have undergone so much change, a long journey to the UK and then brought into a house of strangers, when in the past strangers can be cruel and should be avoided. You first need to allow your pet decompress, to settle in and to get to know you. This could take a few days to a few weeks, ever dog is different.

Once your animals has decompressed and is ready to meet new people think about where that meeting is going to take place. Consider meeting outside for a walk in a more neutral place, heading for a walk and then coming back the home together so your dog has a chance to sniff, feel safe and build rapport. You wouldn't like a complete stranger coming into your home would you?

Once in the home ask your visitors to be calm, allow your dog to approach them and give them the opportunity to have their own space if they need it too. If your dogs a little on the shy side ask your guest to give them space. Sit on the floor not facing the dog directly and to throw the odd treat on their direction to show them that good things come from them
